

HARSH KUMAR

 [harshkumar51](#)  [hkumar51622](#)  [harsh51622](#)  Portfolio  +91 9528514757  Ghaziabad, Hapur

PROFILE

Motivated and detail-oriented Software Engineer with hands-on experience in Python and modern web technologies like React.js. Capable of developing full-stack applications, working with APIs, and managing databases. Passionate about coding, problem-solving, and continuously improving technical skills to build efficient and scalable solutions.

SKILLS

Programming: Python, JavaScript, Basic Java, C/C++

Core Knowledge: DSA (Basics), OOP, DBMS, SDLC

Web Development: HTML, CSS, React.js, REST API

Backend / Database: Python, Django, Flask, MySQL, PostgreSQL

Tools: Git, GitHub, Postman, Vercel, Render

PROFESSIONAL EXPERIENCE

Full-Stack Web Development Projects (Self / Practice)

2025 – Present

- Built responsive web apps using React.js, Python, and Django
- Developed and integrated REST APIs for frontend-backend communication
- Worked with MySQL/Django for CRUD operations
- Implemented authentication (Login/Signup) and basic dashboards
- Deployed projects using Vercel and managed code with Git & GitHub

Technical Training & Practice

2023 – Present

- Gained hands-on experience in Python, JavaScript, and Web Development
- Practiced DSA and problem-solving
- Built multiple projects including portfolio and API-based applications

PROJECTS

Havron Website (Full-Stack / Responsive Web Project) | 2025

- Built a responsive business website using HTML, CSS, JavaScript, and React.js, Python
- Designed modern UI with multiple sections (Home, Services, About, Contact)
- Integrated contact form and optimized performance
- Deployed online with Git & GitHub
- **Live:** <https://harsh51622.github.io/HavronSwitchgears/> | **GitHub:** <https://github.com/harsh51622/HavronSwitchgears.git>

Travelling Website (Full-Stack / Responsive Web Project) | 2025 – Present

- Developing a responsive travel website using React.js, Tailwind CSS, Python, Django and Mysql
- Implementing features like destination listing, search/filter, and API integration
- Focused on mobile-first design and smooth user experience
- **Live:** <https://anytime-trips.vercel.app/> | **GitHub:** https://github.com/harsh51622/Anytime_Trips.git

EDUCATION

Bachelor of Computer Applications (BCA) || JMS Group of Institutions, Hapur || Apr 2023 – Jun 2026

- Relevant Coursework: Data Structures, DBMS, Operating Systems, Web Development

CERTIFICATIONS & TRAINING

- Full Stack Python Web Dev (DU-CAT)
- Front End Development (OneRoadMap)
- Data Analysis with Python (Coursera)
